

M&A Safety Services & Vorenkamp Well Control Training Announce Partnership

VORENKAMP WELL
CONTROL TRAINING

Now Offering Well Control Training

M&A Safety Services is pleased to announce an expansion of our services to include IADC WellSharp, in partnership with Vorenkamp Well Control Training (VWCT). VWCT is an industry leader in the Well Control business with over 100 years combined experience providing well intervention training to oil & gas workers.

M&A Safety Services currently provides a variety of professional safety training to support the oil & gas industry. This partnership expands the training services we are able to offer our customers to better support their needs.

VWCT is owned and operated by Matthew & Steve Vorenkamp, who have dedicated their careers to supporting the well control industry. Partnering with M&A allows VWCT to expand the regions in which they operate to now include: New Iberia, LA; Houston, TX; Midland, TX; Tyler, TX and Casper, WY.

Courses will be held at M&A Safety Services Well Control Training Center located at 1210 Import Dr. in New Iberia, LA. The first course is scheduled for September 4th, 2018, with additional offerings to follow each week. There will be no course minimum requirements and no cancellation fees.

All administrative functions including scheduling, invoicing, and course completion documents will be coordinated by M&A Safety Services consistent with all other course deliveries. This partnership will extend well control offerings to the Houma region once M&A opens its new training center in 2019.

For scheduling, rates and additional information, please contact M&A Safety Services at 337-451-4685 or training@masafetyservices.com.
